AJIJOLA ADEOLA AYODELE

aajijola3@gmail.com | (+234)7065992188 | [Portfolio](#) | Ado Ekiti, Ekiti State/Nigeria

PROFESSIONAL SUMMARY

Detail-oriented Developer with 3+ years building responsive websites and web applications. I specialize in VueJs, NuxtJs, ExpressJS, Laravel, and Tailwind CSS, with strong proficiency in JavaScript and modern web frameworks, as well as experience with CMS platforms, including WordPress. Consistently deliver high-performance user interfaces with clean, maintainable code.

WORK EXPERIENCE

Wekurnect Limited | *Maryland, Lagos State/Nigeria*
Frontend Engineer| *September 2024 – Present*
- Led the comprehensive redevelopment of Wekurnect's SaaS platform for UAC Food Limited (UFL), transforming it into a standalone solution using Vue.js, Vuex, and TailwindCSS. The platform streamlines complex business operations, including distributor management, customer relationship tracking, invoicing, receipt generation, targeted communications, and discount administration. Implemented responsive interfaces and optimized workflows that significantly improved user experience while maintaining robust functionality across the entire distribution chain.

PixelAnchor | *Ketu, Lagos State/Nigeria*
Frontend Developer | *January 2024 – Present*
- Currently spearheading the development of a comprehensive Learning Management System (LMS) utilizing Nuxt.js, Vue.js, and TailwindCSS. Architecting an intuitive and responsive interface that delivers seamless educational experiences across devices. Implementing advanced front-end functionality, including dynamic content rendering, user authentication flows, and interactive learning components. Employing component-based architecture and state management patterns to ensure maintainable, scalable code while optimizing performance for diverse educational content delivery requirements.

EvolveHQ | *Lagos, Lagos State/Nigeria*
Web Developer | *November 2023 – Present*
- Designed, developed, and maintained the EvolveHQ platform using WordPress, Elementor, HTML, CSS, and PHP. Created an intuitive showcase website highlighting course offerings with optimized user journeys and seamless registration functionality. Implemented responsive design principles to ensure cross-device compatibility while enhancing site performance for improved conversion rates. Regularly updated content and refined UI elements based on user feedback and analytics to continuously improve engagement metrics and registration completion rates.

Wild Fusion Limited | *Ikoyi, Lagos State/Nigeria*
Web Developer | *May 2023 – October 2023*
- Led comprehensive website management for the company portfolio and diverse client sites using WordPress and Elementor, ensuring consistent performance, responsiveness, and optimal user experience across all platforms. Leveraged Elementor's advanced design capabilities to implement strategic feature enhancements and UI/UX improvements aligned with industry best practices. Customized themes and plugins to extend functionality while maintaining compatibility and performance standards. Executed technical optimizations and preventative maintenance to maximize site speed, security, and SEO effectiveness, resulting in measurable improvements to user engagement metrics and conversion rates.

Kinplus Technologies | *Ado-Ekiti, Ekiti state/Nigeria*
Frontend Developer | *March 2022 – April 2023*
- Served as a key contributor within a cross-functional development team, collaborating to deliver high-quality, client-focused web solutions. Implemented Tailwind CSS to significantly enhance development efficiency and maintain a consistent responsive design across multiple projects. Pioneered component standardization practices that reduced development time while ensuring brand consistency. Actively participated in knowledge transfer initiatives, providing technical mentorship to new interns and students through training and pair programming sessions
